

pTensor::generateWeights

datasetProvider::provide

pTensor::getMessage

```
graph LR; A[pTensor::generateWeights] --> C[pTensor::getMessage]; B[datasetProvider::provide] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'pTensor::generateWeights' and the bottom box contains 'datasetProvider::provide'. On the right, there is a gray rectangular box containing the text 'pTensor::getMessage'. Two blue arrows originate from the right side of the two boxes on the left and point towards the left side of the gray box on the right, indicating that both 'pTensor::generateWeights' and 'datasetProvider::provide' are inputs or dependencies for 'pTensor::getMessage'.
